Press Release

EmpowerMX elects Christopher Doan, TeamSAI, to Board of Directors

Doan brings additional airline and MRO management perspectives to board

Duluth, Minnesota, USA – November 7, 2006

EmpowerMX announces the election of Christopher (Chris) Doan, president and CEO of TeamSAI, to the board of directors. As a board member, Mr. Doan will provide the EmpowerMX board and management team with the benefit of business insights gained during a 37-year career in airline, MRO and manufacturing management. His duties on the board will include strategic oversight of business planning and operations' performance and contributions to an understanding of present and future airline and MRO customer requirements.

At TeamSAI, Chris leads a consulting practice specializing in strategic management and tactical operations consulting in the aviation sector including: airlines, MROs, corporate/fractional operators, manufacturers and airport authorities. TeamSAI is a co-producer of the Annual World MRO Forecast, and is a partner with McGraw-Hill's Aviation Week Intelligence Network MRO Prospector, its newest web-based product. Prior to joining TeamSAI, he held various executive positions at the Triumph Group, US Airways, Northwest Airlines and TWA overseeing major business segments in MRO, manufacturing and airline operations.

William Brown, chairman of the EmpowerMX board, said, "We are very pleased to have someone with Chris Doan's expertise in the airline and MRO businesses join our board. His understanding of key trends shaping the marketplace for our products and services will prove invaluable to the board and company leaders."

Chris is a graduate of LeTourneau University with a B.S. in Aeronautical Technology and has taken graduate course work at UCLA, Northwestern's Kellogg School of Management and Michigan State University. He is a FAA licensed pilot and mechanic.

About EmpowerMX

EmpowerMX is an industry leader in aviation maintenance software solutions and consulting services. The company's **FleetCycle® Suite of Maintenance Solutions** for airline operators, MRO's and OEM's provides management with real-time, globally available intelligence on maintenance activity, reliability and fleet status. **FleetCycle® Production Manager (FCXP)** is the premier execution tool for heavy maintenance operations, selected by six major airline organizations to drive labor efficiency and cycle time initiatives. The company's **Consulting Services** empower maintenance operations to maximize their efficiency by optimizing maintenance programs, training personnel, establishing best practices and improving processes. EmpowerMX also provides a full range of customer services including information technology consulting, system implementation, integration, training and 24/7 support.
